

# Prabhupada Class'

## OUTDOOR CLASSROOM

---

Prabhupada class always loves to visit their garden to see the progress and growth of their produce.

They have, strawberries, tomatoes, snow peas, lettuces and spinach taking off!

There is usually something small to harvest whenever they visit and this time it was some peas.

Ian prabhu also often sends some veges over to our school kitchen to incorporate into the student's lunch which is very rewarding.

The class then went back and drew pictures of their crop into their outdoor learning journal.
